

REFINITIV® INFRASTRUCTURE 360 APP

Insights on global infrastructure developments
from ideation to completion

REFINITIV® 

Infrastructure is crucial for development. From transport systems to power-generation facilities, it provides the services that enable countries to function and economies to thrive. Encompassing everything from telecommunications, health and education to energy, clean water and sanitation, improvements in infrastructure imply improved economies, environments and societies.

Historically seen as the remit of governments and international development banks, institutional and private investment in public infrastructure has been steadily increasing over the last two decades. The long-term and diversified nature of infrastructure projects, and the strong return profile, has seen the asset class gain increasing interest from the fund management and pension fund industry.

Lower interest rates have further encouraged greater focus on alternative assets, with 200+ private funds launched in recent years, totaling ~\$125 billion in assets under management. With the added shift towards ESG, an estimated \$6.9 trillion annual investment gap is identified to achieve the sustainability goals of the Paris Agreement.

The ongoing economic consequences of Covid-19 and historical under-investment in certain regions are likely to result in increased private sector investment in infrastructure over the medium term, as governments seek to rebalance finances.

DATA IS THE FUEL OF DEVELOPMENT

The key to the success and growth of development projects will depend on transparent access to data, information and insights. Investors need to understand, analyse and deliver profitability for any capital employed.

Refinitiv has the most comprehensive set of news, data, insights and analytics available on global infrastructure developments from rumour to close, including deal structuring, financing, risk profiling, regulatory compliance and lender, investor and advisor profiles.

Our partnership with the world's premier news source, Reuters, in combination with infrastructure financing intelligence from PFI, enables investors, state institutions, asset managers and corporations to make informed decisions that maximise returns.

Enhanced due diligence and surveillance tools further enable coverage of the compliance of these projects, minimising risks of financial malpractice across the end-to-end value chain.

With Refinitiv's data and insights, you will be able to confidently:

- Analyse trends in infrastructure investment
- Manage risks associated with infrastructure
- Monitor progress across multiple projects
- Understand relationships between various stakeholders
- Build and deploy investable assets
- Leverage precedent and ongoing transactions for due diligence, structuring and valuation

REFINITIV ADVANTAGE

Infrastructure 360 combines more than 45 years of leading content from Refinitiv® Project Finance International (PFI), Refinitiv® Lipper®, Refinitiv® Deals Intelligence, Refinitiv® Datastream®, loans, Reuters News and ESG to bring together the world's most comprehensive view of infrastructure and project finance-related insight.

Project Finance International

PFI is the leading source of global project finance intelligence. PFI's team of market specialists reports on the entire lifecycles of deals, from the initial rumours through to post-completion analysis. PFI content, including daily market-moving news, webinars and reports, can be accessed directly within Infrastructure 360.

The screenshot shows the Refinitiv Infrastructure 360 interface. At the top, there is a navigation bar with tabs: DASHBOARD, EXPLORE, ANALYTICS, INITIATIVES, FUNDS, NEWS, INSIGHT, and ABOUT. Below the navigation bar, a search bar displays 'CEOG RENEWABLE HYDROGEN POWER PLANT PROJECT'. On the right side of the search bar, there are buttons for 'Currency' (set to US Dollar (USD)), 'Search projects by Project Name/Alternative Name...', and a magnifying glass icon. The main content area is titled 'CEOQ Renewable Hydrogen Power Plant Project' with a status of 'ACTIVE'. It includes details like 'Last Updated: Jan-2022 | Announced: 28-Sep-2021 | Start Date: Sep-2021 | Fint. Completion Date: Apr-2024 | Country/Region: French Guiana | Financing Status: Financed'. Below this, there are sections for 'PROJECT FINANCE' (listing Project Company, Project Type, Financing Status, Financial Dates, and Project Value), 'ARRANGERS' (listing European Investment Bank, BNP Paribas SA, Sumitomo Mitsui Banking Corp, Agence Francaise de Developpement, Bpifrance SA, and Credit Industriel et Commercial (CIC)), and a 'GEARING' section (showing 61.77%). A large circular chart at the bottom represents the financing structure, divided into two segments: 'Multilateral Agency Covered Loan' (blue) and 'Undisclosed' (black). A note below the chart states: 'CEOQ Renewable Hydrogen Power Plant Project involved the construction of a multi-megawatt hydrogen fuel power plant located in French Guiana. The scheme involved 15MWp of installed photovoltaic capacity, 10MW of installed electrolyser capacity, 80MWh of hydrogen storage, 2 x 1 MWt of fuel cells and more than 150Mw of biomass/biofuels. Capex was EUR120m, including development costs, financial expenses, and taxes. The construction started in September 2021 and will be completed in April 2024. Merial SAS, Satis and Hydrogène De France were the sponsors of the project in September 2021. A consortium of commercial and development banks provided the debt on the US\$200m scheme. BNP Paribas and Credit Industrial et Commercial were the arrangers while BNP was the lender. A EUR10m MUL covered loan reached financial close with arrangers AFD, BNP Paribas France, CIC, Bpifrance, and SMBC. In September 2021, France's EDF was the off-taker on a 25-year power purchase agreement (PPA). Siemens was the EPC contractor. The project cost was EUR170m with debt/equity ratio of w/e 62/38. Eight Advisory IAs was the Financial Advisor to Project. Linklaters LLP was the Legal Advisor to the Project. Allen & Overy was BNP's legal adviser.'

Detailed insight into project participants, schedule and financing via the EXPLORE tab

The screenshot shows the Refinitiv Infrastructure 360 app interface for the Murra Warra II Wind Farm Project. The project is listed under the 'ANNOUNCED' category. Key details include:

- Project Company:** Murra Warra II Fincos Pty Ltd (Australia, Private, Electric Utilities). Business description: Murra Warra II Fincos Pty Ltd is an alternative energy sources establishment.

PROJECT DISTRIBUTION

World Map showing the distribution of projects across the globe.

Infrastructure 360 DASHBOARD provides top stories, insights and project updates from across the infrastructure world

With Refinitiv's breadth and depth of data, insights and the flexible technologies enabling access to them, you are never more than a click away from insights needed to inform smarter decisions.

Refinitiv® Infrastructure 360 provides access to a workflow that follows the deal and underlying project lifecycle from pre-construction, to construction, to ongoing project analysis, providing comprehensive project information and valuation and mark-to-market tools.

News – latest stories, insights and updates on developments from across the world

Macro and micro economic activity – historic and current updates on global/regional economic indicators

Fundamentals – company, commodities, equities, bonds and many other areas of coverage for a transparent insight on all fundamentals

Benchmark and indices – fund-level, asset class-oriented and/or global/regional focus indicators

Screening and surveillance – stakeholder and/or entity-level screening and due diligence support for comprehensive value chain monitoring

League tables – for Bonds, Loans and Sustainable Finance - including mandated arranger and bookrunner views

Project-level data – global and regional focused information on 55,000+ projects from 100+ countries

Deals – screening and analysing of precedent transactions and bonds issued in this space with unmatched content on participants, structures, terms/pricing and valuation

Funds – Refinitiv Lipper, Private Equity and Venture Capital infrastructure fund and benchmark views, including details of all investments plus associated infrastructure projects

The screenshot shows the Refinitiv Infrastructure 360 application interface. At the top, there is a navigation bar with tabs: DASHBOARD, EXPLORE, ANALYTICS, INITIATIVES, FUNDS, NEWS, INSIGHT, and ABOUT. Below the navigation bar, there is a search bar labeled "Search projects by Project Name/Alternative Name" and a currency selector set to "US Dollar (USD)". On the left, there is a list of news items with columns for Time, Source, and Headline. Some headlines include: "Romania's M&A market value falls to \$1.8 bln in Q1 - Ernst&Young", "PRESS: Emirates Steel Arakan Group appoints global sustainability advisor", and "Sinopec signs MoU for 3 GW of solar, storage & battery energy storage in Indonesia". On the right, there is a "QUICK FILTERS" sidebar with sections for "NEWS CATEGORIES" and "INDUSTRY SECTORS". The "NEWS CATEGORIES" section includes "MOST READ", "DAILY NEWS", "LEAD STORIES", "FEATURES", "BANK & ADVISORS", "DEVELOPERS", "LAWYERS", "GOVERNMENTS", "MULTILATERALS", "RATINGS AGENCIES", "FUNDS", "PPP", "PEOPLE", "PP LOANS", "PP DEBT", "PP EQUITIES", "TENDERS", "GREEN BONDS", "CONTRACTS", and "WEBCASTS". The "INDUSTRY SECTORS" section includes "RENEWABLES", "POWER", "OIL, GAS, LNG", "LEISURE & PROPERTY", "WATER & SEWERAGE", "MINING", "TELECOMS", "PETROCHEMICALS", "AGRICULTURE & FORESTRY", "WASTE & RECYCLING", "INDUSTRY", "INITIATIVES", "BELT & ROAD", and "MENA PROJECTS". At the bottom of the sidebar, there are legends for "RED = source PFI", "BLUE = PFI + Refinitiv sources", and "ORANGE = All filterable sources".

Utilise quick filters in the NEWS tab to receive timely updates on a specific industry sector, company type or location

Ensuring critical, timely and relevant information on global infrastructure initiatives

Belt and Road Initiative

The Belt and Road Initiative (BRI) is considered the largest investment programme in human history, accounting for more than US\$500 billion of spend in infrastructure projects across over 70 countries.

Infrastructure 360 powers investors with comprehensive information on ~\$3 trillion worth of BRI projects, macroeconomic and historical time series data, ESG benchmarking, project finance, deals, due diligence and risk profiling analytics. We cover over 3,500 BRI-related organisations, offering data on shareholders, number of employees, company hierarchy, directors, tenders, bidders, participants, scope of work, and more than 4,000 related officers, including job titles and contact information.

- Gain comprehensive insight into BRI projects and understand where to invest using the interactive map
- Secure accurate, up-to-date country risk rankings and mitigate counterparty exposure when dealing with cross-border transactions in BRI countries

MENA Projects

The fast-growing economies of the MENA (Middle East/North Africa) region offer a wealth of opportunity for existing players and new market entrants. In such a competitive market, identifying new market opportunities – and qualifying potential partners and suppliers – is critical to success.

Powered by real-time insight, Infrastructure 360 is the region's most comprehensive projects, companies and contacts database, providing reliable information, transparency and actionable insight into the construction industry.

- Access 80+ regional and international news providers and robust analytical tools to evaluate 30,000+ project opportunities
- Mitigate risks and manage costs with visibility on entire project's value chain, and understand the relationships between participants

Renewables

With the OECD estimating ~6.9 trillion a year in sustainable infrastructure is required up to 2030 to meet the goals of the Paris Agreement, the volume of 'bankable' infrastructure projects involving renewable power, sustainable water and waste is expanding. The challenge lies in verifying which projects will offer stable, long-term returns, whilst meeting environmental, social, resiliency and governance needs.

Infrastructure 360 provides real-time, high-quality data for over 38,000 projects across biomass, geothermal, hydroelectric, solar, tidal/wave, waste and wind – giving you a competitive edge when searching for new opportunities.

Identify and compare project-level detail across different initiatives via the interactive world map

Explore regional, global and sectoral trends via the ANALYTICS tab

Infrastructure 360 is available on Refinitiv® Workspace

Refinitiv Workspace brings together all the content and functionality the investment banking, research and portfolio management communities need, now using cutting-edge browser design and AI-powered technology to perform even faster across desktop, Web and mobile, offering a unique, customised environment.

New features:

- New ‘Financing’ view under the ‘Explore’ Tab. Search the underlying loans and bonds financing a project

INFRASTRUCTURE 360

The screenshot shows the 'FINANCING - LOANS' section of the Infrastructure 360 platform. The 'EXPLORE' tab is selected in the top navigation bar. On the left, there is a filter sidebar with the 'Loans' category selected. The main table lists various loans with columns for Issuer / Borrower, Loan Type, Currency, Amount, and Maturity Date. Each row includes a small circular icon with a letter (e.g., 'O', 'C') at the bottom right.
